

## **National Missing and Unidentified Persons System (NamUs) Training Academy Objectives**

Upon completion of the NamUs Training Academy, participants will be able to:

1. Describe the overall framework and objectives of the NamUs system.
2. Describe the history, development, and functionality of the NamUs system.
3. Identify individual and agency “roles and responsibilities” regarding the investigation of missing and unidentified persons.
4. Identify sources for obtaining case information relative to missing and unidentified persons.
5. Demonstrate quality case data entry on the NamUs system for missing persons and unidentified persons.
6. Describe the basic sequence of events and personnel involved in typical missing persons’ cases.
7. Identify critical missing person case issues relevant to the NamUs system, including case management.
8. Describe the basic sequence of events and personnel involved in unidentified persons’ cases.
9. Describe critical unidentified person case issues relevant to the NamUs system, including case management.
10. Demonstrate an understanding of the matches and exclusions features of the NamUs system.
11. Construct a PowerPoint presentation for use in “state-based” NamUs education.
12. Commit to working with state team members (as appropriate) to advance the objectives of NamUs.
